Volume 33, Number 1, January-February, 2001

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Synthesis of Fibre-Forming Copolymers of Acrylonitrile, Methyl Acrylate, and N-Vinylcaprolactam – N. Yu. Shirshova, M. Yu. Mukhamedzhanova, and G. Khamrakulov 1 3

Fabrication of Polycaproamide Chemisorption Fibre with Hydrazide Groups – T. V. Druzhinina and M. A. Struganova 5 6

Continuous Deaeration of Spinning Solutions of Polyacrylonitrile in Dimethyl Acetamide – A. V. Kalacheva, V. A. Medvedev, and A. T. Serkov 9 9

Estimation of the Parametres of Mechanotropic Gelation in Wet Spinning of Fibres – A. L. Kalabin and E. A. Pakshver 12 12

Viscose Fibres with Low Inflammability – E. V. Bychkova, L. G. Panova, S. E. Artemenko, and Yu. V. Kushelev 16 15

PROPERTIES AND USE OF CHEMICAL FIBRES

Polyfunctional Biologically Active Polyvinyl Alcohol Film Materials – T. N. Yudanova, I. F. Skokova, E. Yu. Aleshina, and L. S. Gal'braikh 20 19

Effect of Water on the Properties of Fibres of the Armos Type – M. M. Iovleva, L. Ya. Konovalova, L. I. Drozd, S. I. Banduryan, V. A. Platonov, G. S. Negodyaeva, N. N. Machalaba, and G. A. Budnitskii 25 22

Stabilization of Polypropylene Fibres – L. I. Kolontai and L. B. Ignat'eva 29 25

Relationship of Structure and Physical Properties of Fibre Materials – A.V. Genis 33 28

Heterocapillarity of Nonwoven Cloth in Different Production Stages – A. V. Dedov, S. V. Babushkin, A. V. Platonov, and V. G. Nazarov 40 33

Improvement of the Dispersibility of Fenilon Fibre in Production of Nonprinting Paper – A. A. Kuznetsova, V. P. Kukhar', and L. N. Akimenko 43 36

Carbon Fibre Materials Based on Secondary Stock from the Flax-Processing Industry – A. A. Morozova and Yu. V. Brezhneva 48 40

MATERIALS SCIENCE

Changes in the Properties of Synthetic Fibres in Thermal Aging – K. E. Perepelkin, I. Yu. Morgoeva, I. V. Andreeva, and G. P. Meshcheryakova 53 45

Fibre Damage in Textile Processing – Yu. E. Anokhina, V. A. Zinov'eva, and M. V. Shablygin 59 50

RESEARCH METHODS

Determination of the Concentration of Polymers in Spinning Solutions for Production of Aromatic Polyamide Fibres – L. N. Bykova and A. G. Venediktova 63 54

REGENERATION AND INDUSTRIAL ECOLOGY
Hollow Fibres for Removal and Concentration of Hydrogen Sulfide from Gas Mixtures by the Membrane Method – D. M. Amirkhanov, A. A. Kotenko, M. N. Tul'skii, and M. M. Chelyak 67 58

MACHINES AND EQUIPMENT
Calculation of Frictional Forces in the Theory of Fibre Tension Accumulation and Transport Mechanisms – V. A. Chaikin 73 63
Determination of the Functional Parameters of Fibre Tension, Accumulation, and Transport Mechanisms – V. A. Chaikin 78 66

Volume 33, Number 2, March-April, 2001

70 YEARS OF THE ALL-RUSSIAN SCIENTIFIC-RESEARCH INSTITUTE OF POLYMER FIBRES
- N. N. Machalaba 83 3
Some Research Trends at the Institute – G. A. Budnitskii and N. N. Machalaba 85 4
Creation of High-Strength, Heat- and Fire-Resistant Synthetic Fibres – A.V. Volokhina and A. M. Shchetinin 96 14
Properties of Armos Para-Aramid Fibres in Conditions of Use. Comparison with Other Para-Aramids – K. E. Perepelkin, N. N. Machalaba, and V. A. Kvartskheliya 105 22
Swelling of Armos Fibre in Active Liquid Media – M. M. Iovleva, V. N. Smirnova, N. N. Machalaba, and G. A. Budnitskii 115 29
Trends in the Development of Synthetic Fibres for Armor Material – N. N. Machalaba, G. A. Budnitskii, A. M. Shchetinin, and G. G. Frenkel' 117 31
Carbon Fibres in Mytishchi – A.T. Serkov 127 41
Shrinkage Mechanisms in Thermooxidative Stabilization of Acrylic Fibres – A.T. Kalashnik, O. N. Panichkina, G. Ya. Rudinskaya, and A. T. Serkov 132 45
Optical Properties and Structure of Highly Concentrated Solutions of Cellulose in N-Methylmorpholine N-Oxide – L. K. Golova, O. E. Borodina, G. Ya. Rudinskaya, and S. P. Papkov 140 52
Ultrafiltration Equipment Using Hollow Fibres and Areas of Application – V. A. Bakunov and L. F. Maiboroda 145 57
New Developments in Continuous Production of Viscose Textile Thread – I. P. Baksheev, P. A. Butyagin, A. A. Yakobuk, and O. A. Kuzubov 150 61
Research by Physical Chemists at the All-Russian Scientific-Research Institute of Polymer Fibres in the Last Decade – M. M. Iovleva 153 64
IR Spectroscopy in the Solution of Many Problems in Continuous Synthesis of Poly-(*p*-Phenylenebenzobisthiazole) – T. A. Belousova 156 66

Volume 33 , Number 3, May - June, 2001

70th ANNIVERSARY OF THE ALL-RUSSIAN SCIENTIFIC-RESEARCH INSTITUTE OF POLYMER FIBRES
Continuation of Publications for the Anniversary of the ASRIPF (No. 2, 2001)
Structure of Coreless, Long Silicon Carbide Fibres and Aluminum—SiC Composites – A. A. Aksenov, Z. F. Egorushkina, and S. V. Medvedeva 163 3

Physicochemical Aspects of Examining the Role and Mechanisms of Action of Lithium Chloride in Solutions of Fibre-Forming Polymers – M. M. Iovleva 172 10
Matching the Composition of Viscose to the Composition of the Spinning Bath in Production of Viscose Fibre – Yu. I. Rzhevtseva, L. A. Zaitseva, P. A. Butyagin, I. P. Baksheev, A. A. Vasyutina, and V. N. Dokuchaev 177 14

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Thermoreversible Gels as Precursors of Polyacrylonitrile Fibres – V. I. Gerasimov, S. N. Chvalun, L. A. Kazarin, A. A. Goponenko, V. I. Mashchenko, and A. M. Filyakin 183 19
Optimization of the Electret State of Polymer Fibres – A. G. Kravtsov and V. A. Gol'dade 189 24
Thermooxidation of Modified Polycaproamide Fibre Containing Graft Poly(Dimethylaminoethyl Methacrylate) – T. V. Druzhinina, Yu. D. Andrichenko, and I. V. Erofeeva 193 27
Change in the Mechanical Properties of Liquid-Crystalline Thermoplastic Polymers at High Temperatures – A. V. Savitskii and I. A. Gorshkova 200 33
Modification of Chitosan Films with Glutaraldehyde to Regulate Their Solubility and Swelling – G. A. Vikhoreva, E. A. Shablyukova, and N. R. Kil'deeva 206 38
The New Levelling Agent Ivalon K. Evaluation of the Effectiveness – N. P. Prorokova, I. V. Stepanenkova, S. Yu. Vavilova, and O. K. Smirnova 211 42

MATERIALS SCIENCE
Effect of the Level of Preliminary Deformation on the Stiffness of Synthetic Fibres – E. S. Tsobkallo, V. G. Tiranov, and E. S. Gromova 215 45
Substantiation of the Choice of Polypropylene Film Fibres for Production of Sewing Thread – S. A. Ryzhov and V. A. Rodionov 220 49
Air Permeability of Fabrics Manufactured from Monofilaments as a Function of Their Structure – M. V. Goryachev and Yu. S. Shustov 223 52
Breakdown of Flax and Cotton Pulp in Acid Medium – I. G. Kalinina, K. Z. Gumargalieva, G. E. Zaikov, and S. A. Semenov 228 55

MATHEMATICAL MODELING OF PROCESSES
Mathematical Model of Removal of a Polymeric Component from a Porous Composite by Capillary Gel Flow – K. V. Pochivalov, M. B. Ermolaev, and L. N. Mizerovskii 232 58
Modeling of the Reaction of Polyvinyl Alcohol with Water Using Semiempirical Quantum Chemical Methods of Computer Chemistry – V. Yu. Gribanov, B. A. Izmailov, and I. A. Abronin 238 61

GLASS FIBRES AND MATERIALS MADE FROM THEM
Boron-Free, Alkali-Free Glass Fibre for Production of Fibreglass-Reinforced Plastics – M. Yu. Kudryavtsev, Yu. I. Kolesov, and N. Yu. Mikhailenko 242 64

MACHINES AND EQUIPMENT
Modernization of the BP-260-V Bobbin-Rewinding Machine – V. G. Fomin and K. N. Ushakova 245 67

Volume 33, Number 4, July-August, 2001

World Production of Chemical Textile Fibres at the Beginning of the Third Millennium – K. E. Perepelkin 249 3

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Phenomenological and Thermodynamic Aspects of Melting and Formation of Polymer Crystals in the Presence of Liquids – L. N. Mizerovskii and K. V. Pochivalov 252 6

Dissolution of Dimethylformamide in Aramids: Effect on the Structure and Properties of the Fibres – L. N. Mizerovskii, I. M. Zakharova, Z. N. Zhukova, and A. E. Zavadskii 258 12

The Solubility of Polyacrylonitrile – M. M. Iovleva, V. N. Smirnova, and G. A. Budnitskii 262 16

Liquid-Phase Systems of Cellulose and Poly(Ethylene Terephthalate) in Trifluoroacetic Acid – O. V. Alekseeva, O. V. Rozhkova, and A. N. Prusov 265 19

The New Leveling Agent Ivalon K. Mechanism of the Leveling Action – N. P. Prorokova, I. V. Stepanenkova, S. Yu. Vavilova, and O. K. Smirnova 269 22

Enhancing the Effect of Surfactants in Dyeing of Aramid Fibres – A. P. Mikhailovskaya, N. V. Dashchenko, T. Yu. Dyankova, and I. B. Dmitrieva 271 25

Kinetics of Drying of Fibre Materials – G. I. Efremov 275 29

MATERIALS SCIENCE

Pharmacokinetic Properties of Fibre Materials Modified by Co-Immobilization of Different Biologically Active Substances – T. N. Yudanova, I. F. Skokova, O. N. Bochkareva, and L. S. Gal'braikh 282 35

Properties of Twisted Synthetic High-Modulus Fibres and Effect of Twisting on the Air Content in Them – O. M. Pshennova and K. N. Ushakova 288 39

Air Permeability of Silk Mesh as a Function of the Structure and Pressure Difference – M. V. Goryachev and Yu. S. Shustov 291 41

FIBRE COMPOSITE MATERIALS

Properties of Carbon-Fibre-Reinforced Plastic Made from Carbon Twist and Epoxy Binder – A. I. Burya, N. G. Cherkasova, M. E. Kazakov, M. T. Azarova, N. V. Tarakanova, and V. Yu. Dudin 294 44

Physicochemical Principles for Creation of Blended Textile Materials with Low Combustibility and Hybrid Reinforced Composite Materials Made from Them – L. G. Panova and S. E. Artemenko 299 48

Cross-Linking, Deformation-Strength Properties, and Combustibility of Filled Polyethylene – N. V. Ponomareva, L. G. Panova, and S. E. Artemenko 306 54

MATHEMATICAL MODELING OF PROCESSES

Method of Estimating the Highly Elastic Properties of an Extended Polymer Jet – A. V. Smirnov and A. V. Genis 309 57

Prediction of the Structural Parametres of Cloth Made from Chemical Fibres – B. M. Primachenko and N. A. Kovaleva 316 62

Variant for Prediction of Deformation of Synthetic Fibres – A. G. Makarov and A. M Stalevich 323 67

METHODS OF INVESTIGATION
Adiabatic Extension and Strength of Fibres – O. V. Sidorov and A. M. Shchetinin 327 70

MACHINES AND EQUIPMENT
Updating of the Bobbin Creel on a Doubler-Twister for Processing of Polypropylene Film Fibres – S. A. Ryzhov and V. A. Rodionov 330 73

Volume 33, Number 5, September-October, 2001

POLY(ETHYLENE TEREPHTHALATE) AND POLYESTER FIBRES — 60th ANNIVERSARY OF THE FIRST PATENT
Polyester Fibres Abroad in the Third Millennium – K. E. Perepelkin 333 3
Physicochemical Nature and Structural Dependence of the Unique Properties of Polyester Fibres – K. E. Perepelkin 340 8
Technological Aspects of Orientational Strengthening of Poly(Ethylene Terephthalate). Modern Schemes for Production of High-Strength Polyester Fibres – V. E. Geller 353 20
Textile Materials Made from Polyester Fibres — a Most Difficult Material to Color – G. E. Krichevskii 364 29
Improvement of Dyeing Technologies for Polyester Textiles – A. V. Baranov and A. P. Moryganov 368 32
Effect of Surfactants on Migration of Cyclic Poly(Ethylene Terephthalate) Oligomers During Dyeing of Polyester Fabric – S. Yu. Vavilova, N. P. Prorokova, and Yu. A. Kalinnikov 372 36

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Effect of Chromium Compounds on Thermochemical Transformations of Graft Copolymers of Polycaproamide and Poly(Dimethylaminoethyl Methacrylate) – I. V. Erofeeva, Zh. A. Marsel', I. N. Gorbacheva, and T. V. Druzhinina 376 39
Some Characteristics of Production of Vidlon Polycaproamide Profiled Twists – N. P. Gankov, D. I. Pishev, and P. M. Petrov 382 44

MATERIALS SCIENCE
Recovery Properties of Amide Fibres Fabricated from Polymers with Different Molecular Chain Rigidity at High Temperatures – E. S. Tsobkallo, V. A. Kvaratskheliya, D. Shen, and D. Vait 386 48
Study of the Acid-Base Properties of Graft Copolymer Chemisorption Fibres by Potentiometric Titration – M. A. Struganova, K. V. Kardash, A. V. Novikov, and T. V. Druzhinina 391 52
Sorption Properties of Nonwoven Materials – A. V. Dedov, S. V. Babushkin, A. V. Platonov, A. P. Kondratov, and V. G. Nazarov 395 56
Methods of Refinement and Control of Predictable States of Synthetic Materials – A. G. Makarov and A. M. Stalevich 398 58

PHYSICAL CHEMISTRY OF FIBRE-FORMING POLYMERS
Ionogenic Properties of Some Polymers and Fibres. A Review – M. M. Iovleva 402 61
New Possibilities of IR Spectroscopy in Investigation of Chemical Filaments – O. V. Sidorov, M. V. Shablygin, A. Gupper, P. Vil'gel'm, and I. V. Slugin 408 66

MATHEMATICAL MODELING OF PROCESSES
Prediction of the Structural Parameters of Fabrics Made from Chemical Fibres. Part 2. Determination of the Structural Parametres and Mechanical Properties of Chemical Fibres – B. M. Primachenko and N. A. Kovaleva 411 68
Study of the Hydrodynamic Parameters of Nonstationary Isoentropic Flow of a Viscous Polymer in the Melt Conduits of Melting and Molding Machines – Ya. A. Solyar, A. Ya. Solyar, and V. A. Entin 416 72

Volume 33, Number 6, November-December, 2001

TEXTILE — 2001
Production and Properties of Polyvinyl Alcohol Spinning Solutions Containing Protease C and Polyhexamethylene Guanidine – E. Yu. Aleshina, T. N. Yudanova, and I. F. Skokova 421 4
Effect of Aprotic Solvents on the Macromolecular Reaction of Hydrazidation of the Graft Copolymer of Polycaproamide and Polyglycidyl Methacrylate – M. A. Struganova and T. V. Druzhinina 424 6
Study of Emulsions of Solutions of Film-Forming Polymers in Methylene Chloride Related to the Problem of Microencapsulation of Proteins – Yu. V. Chernysheva, N. R. Kil'deeva, and V. G. Babak 428 9
Determination of the Kinetics of Drying of Poly(Ethylene Terephthalate) Granules Using a Direct Method of Calculating the Mass Conductivity Coefficient – Yu. A. Geller and V. A. Reutskii 433 13
Modification of Polyester Fibres to Give Them Nonstick Properties – L. V. Redina, N. V. Kolokolkina, L. S. Sletkina, Yu. Ya. Sevost'yanova, and T. G. Movchan 437 15
Study of Sorption of Viscose—Polyamide and Viscose—Polyester Composite Fibres – V. A. Rodionov and E. V. Illarionova 440 17
Quantitative Characteristics of Binding of Metal Ions by Polyamide Fibres – T. E. Platova, N. P. Dubankova, and N. N. Pavlov 442 19
Characteristics of Fireproofing and Combustion of Multicomponent Fibre Systems – M. A. Seredina, M. A. Tyuganova, and L. S. Gal'braikh 445 21
New Fire Retardants for Thermoplastic Fibre-Forming Polymers – O. G. Kuznetsova, N. S. Zubkova, N. G. Butylkina, V. S. Svistunov, and Yu. K. Naganovskii 449 25
Poly[N-Heterylmethyl(Propyl, Butyl)](Organo)Siloxanes — New Modifiers for Chemical Fibres and Cloth – B. A. Izmailov, N. E. Bochkarev, and N. A. Budkin 452 27
Complex Metal Cations as Modifiers of the Properties of Polyester Fibres – N. N. Pavlov, V. M. Barantsev, S. V. Degtyarev, V. A. Anikin, L. V. Balabanova, and V. V. Pavlova 455 29
Planning the Breaking Load of Yarn Made from Different Chemical Fibres – Yu. S. Shustov 459 32
Effect of the Number of Folds in the Initial Elastic Fibres on the Physicomechanical Properties of Cord-Braid Articles – V. A. Rodionov and G. A. Shel'kov 463 35
Building the Structure of Capron Rope Strands – Yu. F. Sokolov 466 38
Rewinding of Oxalon Fibre of High Linear Density on a BP-260-V Bobbin-Rewinding Machine – V. G. Fomin and K. N. Ushakova 473 42
Process Methods of Increasing the Wear Resistance of False-Twist Mechanism Parts – V. U. Mnatsakanyan, M. A. Moskalev, K. V. Molodenskaya, L. Kh. Baldaev, and A. S. Bogoslovskii 476 44
Process Aspects of Quality Control in Production of Viscose Fibres – D. I. Buyaev, L. S. Gal'braikh, Yu. N. Fikhman, I. P. Baksheev, and A. A. Yakobuk 478 46
Strategic Planning of Production of New Types of Chemical Fibres – O. N. Zotikova 482 50

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Kinetics of Limited Dissolution of Liquids in Polymers: Theoretical Aspects of the Problem – L. N. Mizerovskii and K. V. Pochivalov 487 54
Kinetics of Limited Dissolution of Liquids in Polymers: Dissolution of Methylbenzenes in Polyether Urethane – K. V. Pochivalov and L. N. Mizerovskii 495 59

FIBRE COMPOSITE MATERIALS
Sorption Studies of the Pore Structure of Carbon Fibres – N. I. Zagoruiko, I. S. Rodzivilova, S. E. Artemenko, and L. G. Glukhova 499 62
Effect of Oxidative Treatment of Carbon Fibre on the Properties of a Carbon-Fibre-Filled Plastic Fabricated by Polycondensation Filling – S. E. Artemenko, L. G. Glukhova, and N. I. Zagoruiko 502 65

RESEARCH METHODS
Determination of the Viscoelastic Characteristics of Polymer Materials on the Example of Polyacrylonitrile Fibre – A. M. Stalevich and A. G. Makarov 505 68
Comparative Analysis of Methods of Measuring Fibre and Filament Diameters – G. P. Meshcheryakova and K. E. Perepelkin 509 70
